# product overview.

While electronics can be complicated, Dusk Home Automation helps to **keep things simple**. Dusk Home Automation integrates all the electronics in your Home, creating a single system that puts you **in control**.

# layout.

The well-thought-out layout of Dusk Home Automation is grounded on the User and their needs. The layout of Dusk Home Automation facilitates the User's each and every interaction with the system at one's ease.

**subsystems.**

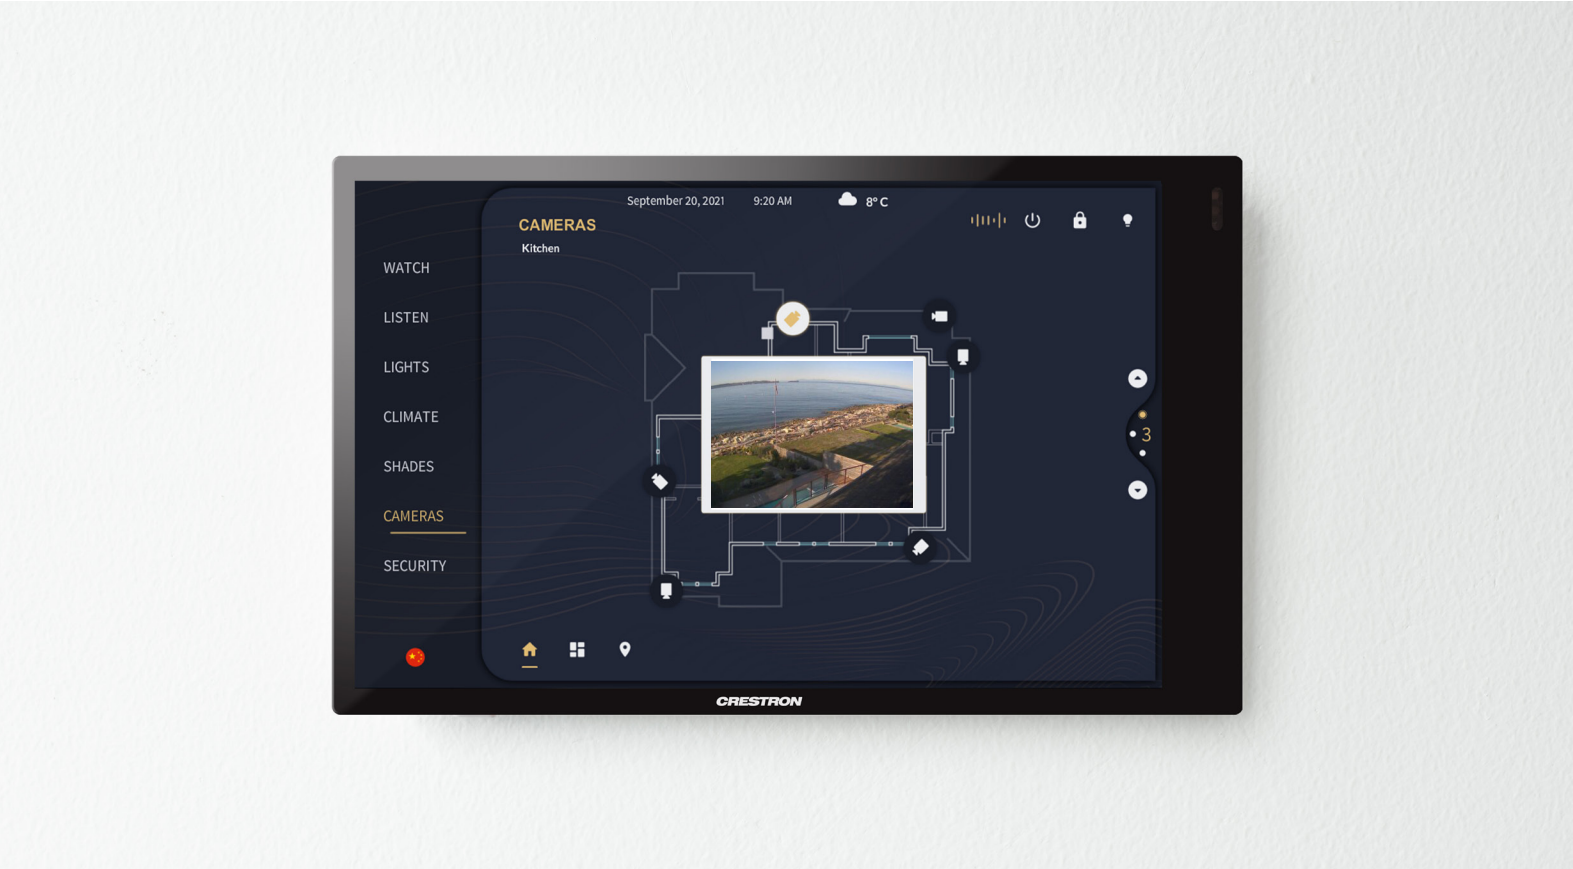

# personalization.

Dusk Home Automation is highly personalized to the User's needs, ranging from a two-bedroom condo to a 30,000 square ft<sup>2</sup> mansion. Our Residential Programming and Interface Development both demonstrate this personalization of needs accordingly.
